First Mobile Technologies' products are interchangeable and allow you to build a solution that best fits your needs.

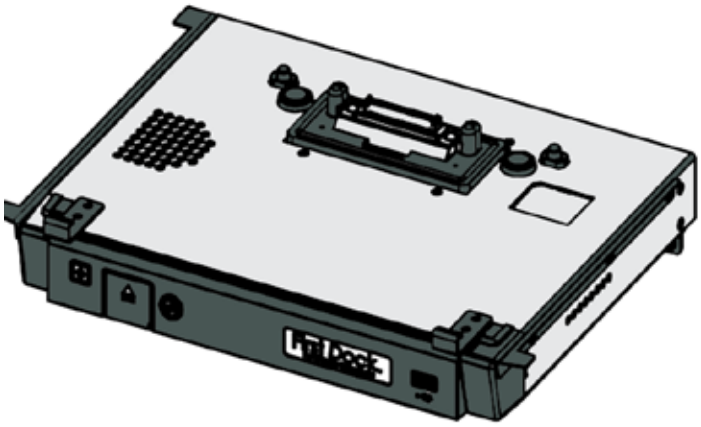
JUMP to Table of Contents

A basic system consists of the following items:

First*Dock*™ or First*Cradle*™

First*Cradle*™ is a secure device that locks your computer in place.

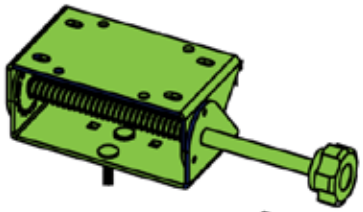
Two kinds of cradles exist:
dedicated |cradle designed exclusively for a particular model
universal |cradle designed to secure and fit any computer



First*Dock*™ secures your computer into place, while also providing inputs, or connectors for your computer peripheral devices, such as a scanner, bar code reader, keyboard, mouse, printer, etc.
all First*Docks* are dedicated

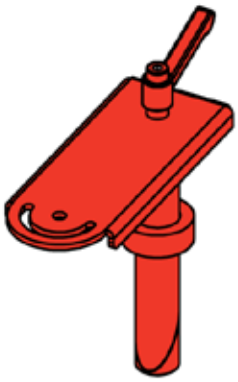
tilt/swivel

Attaches to the end of the top plate, allowing the computer to pivot and tilt and position the keyboard for user comfort.



top plate

Inserts into the top of the pole, providing a mounting surface for a docking station or cradle. Additionally, top plates allow the docking station to be moved side to side for easier user access.



pole

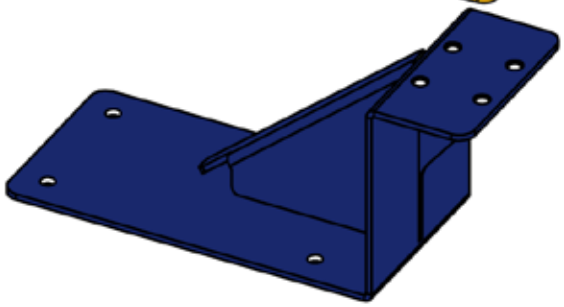
Provides the necessary height for the mounting system. Standard pole lengths are 9" and 14". Poles are made with sturdy 12-gauge poles and 7-gauge steel plates for bolting to the base.

base

Uses 7- to 11- gauge powder-coated steel—the most durable in the industry. The base secures the mounting solution to the vehicle.
Two kinds of bases exist:

dedicated | designed exclusively for a specific vehicle

universal | designed to mount to any flat surface, such as the vehicle floor or console box



Most bases can be installed without drilling, using existing seat bolt patterns

Installation Services

First Mobile Technologies' nationwide installation service enables us to install your solution whenever and wherever you need it.

With the experience of more than 50,000 installations, First Mobile Technologies has developed a level of process and installation expertise that is unmatched. In fact, we are the only mobile technology company that offers a comprehensive range of services.

JUMP to Table of Contents

project management

Installation projects can be complex and time-sensitive. As such, we offer dedicated resources to manage projects from conception to completion to ensure your fleet is returned to service as quickly as possible.

safety

We don't "tap in" to existing power sources that are used to power your critical systems. We use separate and distinct wiring to power your mobile solution. It's safer for the operation of your equipment and safer for you.

preassembly

Unlike our competitors, we can pre-assemble our mounting equipment so it ships out to your location ready to go. This ensures the installation process moved quickly and flawlessly.

train the trainer

We are happy to provide training services to enable your personnel to offer installation training throughout your organization.

nationwide coverage

We can deploy our installation teams to your location, or we can coordinate an install at one of our facilities.

Docks and Cradles [for Panasonic™]

JUMP to Table of Contents

CF-19 Toughbook First*Dock*™

also compatible with CF-18 Panasonic Toughbook
Part # FM-D-CF19

CF-30 Toughbook First*Dock*™

also compatible with CF-29 Panasonic Toughbook
Part # FM-D-CF30

Panasonic dock features

Durable Design
Engineered and tested to a military standard (MIL-STD-810F), the benchmark for vibration and crash resistance certification

Dock plate is made with 11-gauge steel
to withstand the toughest environment and aesthetic powder-coated finish to hide finger prints and scratches

Closes Completely
Laptop lid closes completely while docked

DC/DC power supply
Exclusively for in-vehicle use

Screen holder
Ensures computer screen remains in a fixed position

Tilt-Swivel device
Vertically and horizontally rotates computer for optimal positioning

Warranty
3-Year Standard Warranty on FMT In-Vehicle docks

Full Port Replication
One simple connection provides access to 13 expansion ports including: VGA, DVI, S-Video, Parallel, Serial, PS/2 (Mouse and Keyboard), S/PDIF, USB 2.0 (x4), RJ-11, and RJ-45. RF pass-thrus optional

Power/Charge Capabilities
While docked, the laptop will be powered and will charge the internal battery

Key Lock System
Engages and secures the computer to the First Mobile Technologies docking station. Dedicated undock button and indicator provides quick, safe undocking

Lock and easy release feature

Accessories
FMT offers a wide range of docking accessories to complete your mobile technology requirements. Includes a variety of in-vehicle docking elements (power/charge options, consoles, mounting hardware and other support elements)

[Steel Dock Plate (page 7) is required for all Panasonic First*Docks*]

Docks and Cradles [for Panasonic™]

JUMP to Table of Contents

CF-52 Toughbook First Mobile™ Docking Tray

Part # FM-DT-CF52

Full Port Replication
Designed for use with the Panasonic Port Replicator (required), which can also be purchased through your FMT salesperson (Part #CF-VEB522M), the CF-52 Docking Tray provides full access to USB connectors (4), DisplayPort, RJ-45, serial, AC jack, power button, cable lock slot, and slide release.

Warranty
3-Year Standard Warranty on all metal parts

Key Lock System
for theft prevention, added stability & security

CF-30 Toughbook First*Cradle*™

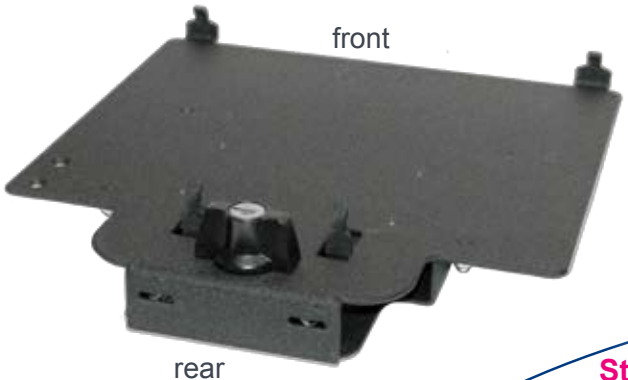
Part # FM-C-CF30

Made with 11-gauge steel
for vibration resistance and safety and non-glare surface finish for maximum in-vehicle usability

Full access to Toughbook functionality
including all ports, card slots and drive bays

CF-19 Toughbook First*Cradle*™

also compatible with CF-18 Panasonic Toughbook
Part # FM-C-CF19



Non-Glare Surface Finish
Ultra-strong, 11-gauge steel is powder-coated for minimal glare and maximum durability

Rear Key Lock System prevents theft while safely holding the Panasonic CF-18 Toughbook in place

A Secure Fit for both CF-18 and CF-19 Toughbooks

Steel Dock Plate

Sits below the Panasonic Port Replicator for the most rugged support; **required for all Panasonic First*Docks*.**

Docks and Cradles [for Dell™]

JUMP to Table of Contents

E6400XFR™ Notebook First*Dock*™

(First*Cradle* also available for the E6400XFR Notebook: see page 12)

Part #'s: FM-D-XFR-E
FM-D-XFR-E-RF
FM-D-XFR-E-W/PS
FM-D-XFR-E-W/PS-RF

Superior Functionality
The new E-XFR First*Dock* custom docking station includes several exclusive features:

Internal power supply option available.

Option to add 3 RF Pass Thru's (this feature only available on XFR models *FM-D-XFR-E-RF* and *FM-D-XFR-E-W/PS-RF*) Provides external (vehicle mounted) antenna connection capabilities (TNC) for XFR notebooks with integrated WiFi (802.11) and/or Broadband radios

Includes user-friendly custom ports: a USB port in the front of the dock (6 total), as well as 2 serial ports for greater convenience. Other available ports include a network connector, 2 audio connectors,AC adapter, VGA connector, DVI connector, paralell connector, eSATA connector, E-monitor connector, and mouse and keybord connectors

Durable Design: Tested to military standard (MIL-STD 810F) and Standard of Automotive Engineers (SAE J1455) – the ultimate benchmark for vibration and crash resistance certification.

Equipped with screen holder for added stability

Key lock for increased security

Powder-coated finish protects from sun glare, smudges and scratches

Optimal footprint provides maximum user space

Computer closes completely in locked position

Quality construction: Made of heavy-gauge metal to withstand the toughest environments

[E-Series First*Docks* Let Dell Notebooks "Breathe Easy"]

JUMP to Table of Contents

E6400 | E6410 | E6400ATG | E6410ATG Notebook First*Dock*™

Part # FM-D-E6400
or # FM-D-E6400-W/PS

Durable and Functional Design

The new E-ATG First*Dock* custom docking station includes the same dynamic features of the E-XFR model (see page 8 for more details), however the E-ATG is not RF Pass Thru-compatible.

Internal Power Supply Option available for all Dell-dedicated E-Series First*Docks* (part # FM-D-XFR-E-W/PS and #FM-D-E6400-W/PS)

Screen Holder (not pictured) included with all Dell E-Series First*Dock* and First*Cradle* XFR models.

[New Safe-Release "Undock and Go"™ Mechanism]
When the key is turned and the release button pressed, two recessed, cushioned ejector pads raise simultaneously on either side of the connection, gently releasing the computer from the E-Series First*Dock*. The computer remains on and active.

[Dell™ E/Port Station Functionality]
Both XFR and ATG First*Docks* use one simple connection that provides access to 15 expansion ports (including 1 front, 3 side, and 2 rear USB ports).

Options and Accessories

FMT offers a wide range of docking accessories to complete your mobile technology requirements. Power options include the Hardwired DC power supply for the Dell Latitude E-Series (FM-PWR-DLH-E) or the Cigarette plug DC power supply for the Dell Latitude E-Series (FM-PWR-DLC-E).

JUMP to Table of Contents

E6400 | E6410 | E6400ATG | E6410ATG Notebook FirstCradle*Plus*™

Part # FM-CP-ATG-E

[non-glare surface finish] for maximum in-vehicle usability

[made with heavy-gauge metal] for vibration resistance and safety.

[scratch resistant clamps] to protect and secure the computer. Clamps come in four different sizes (and colors) to fit the E6400 or E6400ATG, either with or without a port replicator.

[key lock system] Engages and secures the Dell Notebook to the FirstCradle*Plus* for increased safety and security.

Expandable to suit your needs
The new FirstCradle*Plus* for the Dell E6400, E6410, E6400ATG, and E6410ATG can function alone as a cradle, and by adding the Dell E-Series Standard (or Advanced) Port Replicator, you gain the features of a full vehicle docking station.

Durable Design: Tested to military standard (MIL-STD 810F) and Standard of Automotive Engineers (SAE J1455) – the ultimate benchmark for vibration and crash resistance certification.

Optional Screen Holder available for added safety and stability

Key lock for increased security

Powder-coated finish protects from sun glare, smudges and scratches

Optimal footprint provides maximum user space

Computer closes completely in locked position

Quality construction: made of heavy-gauge metal to withstand the toughest environments

Warranty: Full 3-Year Warranty on all metal products.

JUMP to Table of Contents

E6400 | E6410 | E6400ATG | E6410ATG Notebook FirstCradle*Plus*™

(**Pictured below with the Dell Advanced Port Replicator, sold separately by Dell.**
The FirstCradle*Plus* is also compatible with the Dell Standard Port Replicator, also sold separately by Dell.)

[Optional Dell Advanced Port Replicator]
Attaches to the FirstCradle*Plus* to add the connectivity and features of a full vehicle docking station (sold separately by Dell).

[optional accessories]

Hardwired DC Power Supply for Dell Latitude E-Series

Part # FM-PWR-DLH-E

First Mobile Technologies doesn't "tap-in" to existing power sources that are used to power your critical systems. We use separate and distinct wiring to power your mobile solution. It's safer for the operation of your equipment and safer for you.

Cigarette Plug DC Power Supply for Dell Latitude E-Series

Part # FM-PWR-DLC-E

This optional accessory allows the user to utilize the vehicle's power supply to run the laptop without the need for hardwiring.

Brackets for Dell E-Series Advanced Port Replicator

Part # FM-CP-EXT-TABS

While the Dell Standard Port Replicator needs no additional hardware, First Mobile Technologies can provide the additional brackets necessary to utilize Dell's Advanced Port Replicator with the FirstCradle*Plus*.

JUMP to Table of Contents

First*Dock*™ for the Latitude™ XT2 XFR Tablet

Part #'s: FM-D-XFR-XT2
FM-D-XFR-XT2-RF

Built-in 8x DVD±RW Drive that reads *and* writes to CDs and DVDs

Option to add 3 RF (antenna) Pass Thru's for the functionality you require (Part # FM-D-XT2-XFR-RF)

Available ports include a serial connector, audio connector, 4 USB 2.0 (2 rear, 1 side, and 1 front) connectors, an AC adapter, VGA connector, DVI connector, eSATA connector, RJ-45 network connector, and a 1394 (firewire) connector

Durable design tested to military standard (MIL-STD 810F) and Standard of Automotive Engineers (SAE J1455) – the ultimate benchmark for vibration and crash resistance certification.

Key lock for increased security

Aesthetic powder-coated finish protects from smudges and scratches

Optimal footprint provides maximum user space

[Triple RF Pass-Thru Option]
Connects Wireless WAN, GPS, and Wireless LAN antennas

[in-dock DVD±RW drive]
reads and writes to CDs and DVDs

[conveniently placed USB ports]
One front, one side, and two rear USB connectors allow easy access when connecting perepherials to your First*Dock* XT2 XFR

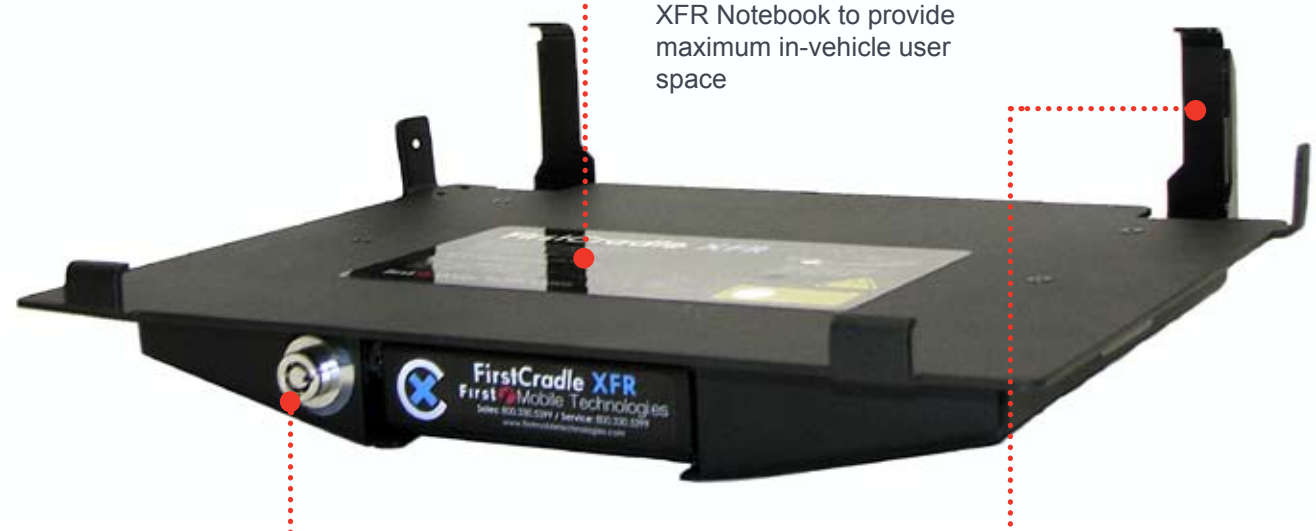
[key lock system]
Deters theft by securing the XT2 XFR Tablet to the First*Dock*

JUMP to Table of Contents

E6400XFR Notebook First*Cradle*™

Part # FM-C-XFR-E

[optimal footprint]
Custom designed for the Dell Latitude E6400 XFR Notebook to provide maximum in-vehicle user space



[scratch resistant clamps]
to protect and secure the computer while driving.

[key lock system]
Deters theft by securing the XFR Notebook to the First*Cradle*, and allows for easy placement and removal of computer

Rugged Design for a Ruggedized Computer: Tested to military standard (MIL-STD 810F) and Standard of Automotive Engineers (SAE J1455) – the ultimate benchmark for vibration and crash resistance certification.

Equipped with screen holder for added stability (included free with all Dell E-Series First*Dock* and First*Cradle* XFR models)

Key lock for increased security

Powder-coated finish protects from sun glare, smudges and scratches

Computer closes completely in locked position

Quality construction: made of heavy-gauge metal to withstand the toughest environments

Warranty: Full 3-Year Warranty on all metal products

[allows full access to all existing computer ports]

Docks and Cradles [for Universal use]

JUMP to Table of Contents

New First*Cradle*™ Universal

Part # FM-C-UNIV2

One Size Fits All
Small enough to fit a 9.25" Netbook, for secure and affordable in-vehicle computing. Expands to over 15.5" to securely hold almost any size notebook computer on the market

[back view]

Steel Housing, 0.078-inch thick, to withstand the toughest environment.

Innovative locking mechanism (patent pending) that locks the sliding tray in any position to securely hold computers of varying widths.

Six Adjustable Touch-Points allow variable bracket height and position to secure your computer in the safest possible position

Provides full access to computer functionality such as ports, card slots, and drive bays on most computers

Warranty
Full 3-year warranty on all metal components

[optional accessories]

Screenholder

Part # FM-SC-UNIV2

Attaches to the side of the First*Cradle* Universal to securely hold the laptop screen in virtually any open position.

Mini Brackets

Part # FM-BKT-UNIV2

Designed for use with smaller notebook or netbook computers, these rear mini brackets replace the standard, full-sized brackets in the rear of the First*Cradle* Universal for a safer, more secure fit.

Tilt / Swivel

Attaches to the end of the top plate, allowing the computer and dock to pivot and tilt for optimal positioning and user comfort with positive lock feature and 0-80° of tilt and 360° of swivel. Extra long handle for ease of use available in the FM-TS-L.

Part #	Length
FM-TS-S	9.5”
FM-TS-L	10.5”

JUMP to Table of Contents

[tilt/swivel accessories]

Base Plate

Base plate mounts onto a vertical surface or console box. Made of 11-gauge powder-coated steel, the base plate supports the tilt/swivel and docking station instead of a standard vehicle base mount

Part #
FM-TSB

Bracket

Bracket allows for rotation and extension of docking station **when the base plate is used** instead of a standard vehicle base mount.

POLICIES

Partnership Services

As the leading provider of integrated turn-key hardware solutions, First Mobile Technologies maintains strategic partnerships and alliances with many Fortune 500 companies to offer the highest quality equipment at the lowest prices. Additional offerings include antennas, modems, wireless components, computers, racks, lights, sirens, and more. Please contact your sales representative or contact us at 1.800.330.5399 for a complete listing. Together, we move you seamlessly through all phases of wireless integration and provide you with a total solution.

Terms of Sale

First Mobile Technologies will provide adequate consideration for an open account to all customers with approved credit. Standard credit terms are net 30. Credit will remain solely at the discretion of First Mobile Technologies. To request a credit application, please contact 1.800.330.5399 or fax a request to 1.610.828.1195.

Product may additionally be purchased with Visa, MasterCard, America Express, cash-in-advance, or C.O.D.

Pricing

Prices, specifications, and products are subject to change without notice. Possession of a price list does not guarantee pricing or product availability. First Mobile Technologies reserves the right to discontinue or modify products at anytime.

Shipping

All prices are F.O.B. factory. Freight is prepared and will be shipped in the most economic and safe method unless otherwise stated. Partial shipments will be made unless otherwise agreed upon by the purchaser. Approximate shipping costs can be provided at time of order.

Return Authorization

First Mobile Technologies must be contacted and a Returned Authorization provided prior to submitting any product or goods. The Return Authorization number must be clearly identified on the outside of the package. The return of products that were a result of customer ordering error will be subjected to a 20% restocking fee. Customer is responsible for all return shipping charges. Unauthorized returns will be refused.

WARRANTY STATEMENT

First Mobile Technologies warrants to the original purchaser of our products that at the time of purchase our products will perform to its specific ratings and will be free from defects in materials and workmanship under normal use. The warranty period shall begin at the time of delivery. First Mobile Technologies warrants its vehicle mounting equipment for five years. Docking stations and electrical parts are warranted for one year only. First Mobile Technologies will repair or replace, without charge, any of our products that fail due to defects in material or workmanship. This is the original purchaser's exclusive remedy under First Mobile Technologies' warranty.

This warranty does not apply to: failure due to damage, misuse or abuse (such as excessive force, improper installations, or application of power in excess of specific ratings). This warranty also does not apply to: damages resulting from (i) accident, neglect, negligence, vandalism, fire, riot, war, or Acts of God; (ii) structural or other modification or alteration without prior express written authorization from First Mobile Technologies; (iii) repair or attempted repair by unauthorized persons; (iv) replacement of original components with substitutes without prior written authorization from First Mobile Technologies; (v) failure to perform routine preventative maintenance as customarily accepted within the industry; or (vi) exposure to corrosives, containments, chemicals, salt or atmospheric or environmental conditions.

OTHER THAN THE WARRANTIES SET FORTH ABOVE, FIRST MOBILE TECHNOLOGIES EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED, IMPLIED OR STATUTORY, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY, WARRANTY OF FITNESS FOR ANY PARTICULAR PURPOSE, WARRANTY BY DESCRIPTION OR SAMPLE, OR ANY WARRANTY ARISING BY USAGE OF TRADE, COURSE OF DEALING, OR COURSE OF PERFORMANCE. NO AGENT OR EMPLOYEE OF FIRST MOBILE TECHNOLOGIES OR ANY OTHER PERSON IS AUTHORIZED TO ALTER OR ENLARGE THESE WARRANTIES, EXTEND ADDITIONAL WARRANTIES OR AMEND THE DISCLAIMERS SET FORTH HEREIN ON BEHALF OF FIRST MOBILE TECHNOLOGIES.

FIRST MOBILE TECHNOLOGIES' LIABILITY UNDER THIS LIMITED WARRANTY DOES NOT EXTEND TO LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF A VEHICLE (OR LOSS OF PROFITS RESULTING THEREFROM); INJURY TO PROPERTY OR PERSONS, OR ANY OTHER SPECIAL, INDIRECT, CONSEQUENTIAL OR INCIDENTAL DAMAGES WHATSOEVER.

All claims under this Warranty must be submitted in writing to First Mobile Technologies within the warranty period as stated herein.

Our History

Founded in 1994, First Mobile Technologies provides full turnkey hardware solutions for integrating mobile computers, mounting equipment and communication systems into environments requiring rugged technology.

We are uniquely positioned to serve the public safety, utility, transportation, government, military, healthcare, manufacturing, industrial, oil and gas, and marine markets–in addition to many others.

As part of a $10+ billion organization, First Mobile Technologies has the support of strong financial and management resources to provide the latest mobile technology and equipment installations in a customer-focused environment.

First Mobile Technologies specializes in a full range of mobile and mounting hardware products that includes non-rugged and rugged mobile computers, docking stations, mount systems, communication equipment, antennas, cable, power distribution centers, proprietary voltage protection units (patent pending) and much more.

We are proud to be the only turnkey mobile computer hardware company in the industry that manages the entire process from designing and manufacturing customized hardware solutions to providing wiring and complete installation services.

In serving your needs, our turnkey approach allows for a seamless integration of not only the mobile computer solutions, but also the complete vehicle upfit package–making First Mobile Technologies unmatched in the industry.
